Spring 2013

Use this interface to add or drop classes for the selected term. If you have already registered for the term, those classes will appear in the Class Registered Successfully section. Additional classes may be added in the Add Class table. To add a class enter the Course Reference Number (CRN) in the Add Class table. Classes may be dropped by using the options available in the Action field. If no options are listed in the Action field then the class may not be dropped. When add/drops are complete click Submit Changes.

If you are unsure of which classes to add, click Class Search to review the class schedule. Students are only permitted to register for courses approved by their advisor. In addition, registration must occur only for the individual's use. Registration in courses for which a student has already taken and received a passing grade is prohibited unless approved by his/her college. The only exception to this is registration for courses that are repeatable such as a "topics" course. Registration for courses not approved by an advisor can result in removal from the course at the discretion of the Registrar with no prior warning to the student. Registration for courses that have already been taken and passed by a student will result in the removal from the course with no prior warning to the student.

Students who are identified as holding a seat for a fellow student and students who are identified as adding the "held" course will be subject to registration penalties in the subsequent term.
